Introduction

Welcome to the 24th Scandinavian Sarcoma Group Working Committee Meeting in Malmö, 2019. As usual all working committees have their own program and will discuss comprehensively selected topics.

On Monday morning we start with the general assembly where the board will present the current status and activities. As the new chair of SSG, I would like to use this opportunity to engage with the members in an open dialogue about the future vision of SSG. We have therefore intentionally dedicated the whole of the general assembly session for an open dialogue and hope all members will participate and be active participants and share their point of view with me and the board.

As previous years there will be lectures on selected topics. As a new tradition and in order to make the session multidisciplinary and of interest to all, we have asked each subcommittee to make one presentation of subject of their choice. Beside the scientific presentations there will be a proposal for an SSG initiated clinical trial of treating metastatic angiosarcomas.

On Tuesday afternoon the Visceral and retroperitoneal sarcoma working group will have their meeting and, as in previous years, all are invited and encouraged to participate.

According to the tradition of rotating the plenary meetings between the Nordic countries, the next SSG Congress in 2021 will be held in Tampere, Finland.

All chairs of the working committees should send their report from the meeting to the SSG's secretariat, our administrative secretary Eva-Mari Olofsson (Eva-Mari.Olofsson@med.lu.se) before December 20th, 2019.

Akmal Safwat, chairman Thomas Baad-Hansen, secretary
