

20th Working Committee Meeting of the Scandinavian Sarcoma Group

November 30 – December 1, 2015, Malmö.

Imaging Working Group

Participants

Arne Lücke	Aarhus
Mikael Skorpil	Stockholm
Maja Sloth	Lund
Jörgen Strinnholm	Umeå
Conny Ström	Umeå

Protocol

*Journal club discussed articles, possibilities, problems and also presented cases concerning therapy response and sarcomas using different modalities and MRI techniques.

*Interesting cases from participants of the Imaging Group were presented and discussed, especially Ewing sarcoma, osteogenic sarcoma and fibrous dysplasia.

*Mikael Skorpil gave a report from SSG 37th Plenary Meeting in Stockholm, especially on fat tumours.

*The benefits of sclerosing ABC instead of operating on them was highlighted.

*The value of Dixon sequences in sarcoma imaging was raised. Umeå University Hospital will implement the sequences, evaluate and report at the next Working Group Meeting.

*Mikael Skorpil was elected for one more year as chairman.
