

SSG Working Group Meeting

November 30, 2020

Teams

Minutes from the Orthopaedic Group

Chairman O-J Norum, Oslo

Due to the pandemic situation, the meeting was arranged as a virtual meeting. Out of 60 active tumororthopedic surgeons in Scandinavia, 35 participated.

The agenda

1. Welcome - short introduction and rules for the meeting (Norum)
2. Information about upcoming meeting in Tampere (Baad-Hansen)
3. Information about the Scandinavian Megaprosthesis registry (Zaikova)
4. Short summary of the DOREMY study for Myxoid Liposarcoma (Norum)
5. Short summary from the oncology meeting about Denosumab in GCT treatment (Norum)
6. SSG Orthopedic Problem cases 2020 presented by each centre
 - a. Oslo – Myxofibrosarcoma of the thigh
 - b. Aarhus – Ewingsarcoma distal humerus
 - c. Stockholm – Osteosarcoma prox humerus
 - d. Bergen – Osteosarcoma prox femur
 - e. Copenhagen – Myxoid liposarcoma pregnant woman

Respective minutes from the agenda

1. The meeting was technically successful, nicely assisted by Eva-Mari from Lund.
2. Tampere meeting: oct 6-8 2021. Next WGM will be held in Malmø jan/feb 2022
3. Megaprosthesis register:
 - a. The board is established (participants from Copenhagen, Aarhus, Stockholm, Lund, Gothenburg, Umeå, Oslo, Bergen, Helsinki and Reykjavik).
 - b. Bylaws, description, variable list is agreed upon
 - c. A beta-version is out for testing among the centers. In Norway all regulatory aspects are covered (regulatory approval) and the other countries are working toward the same goal.
 - d. Soon ready to move the registry to a production platform.
4. Doremy – see Oncological report
5. GCT/Denosumab – see oncological report
6. SSG problem case – the members of the WGM want to continue. One new case each month. Chairman will circulate a list for who's next in turn to present the case of the month in 2021.
