Introduction

Dear SSG members,

Welcome to the 26th Scandinavian Sarcoma Group Working Committee Meeting in Malmö 2022.

As usual all working committees have their own program and will comprehensively discuss selected topics.

On Monday morning we start with the General assembly where the board will present the status and activities as well the status of the next SSG congress in Tampere and when and where the next congress should be.

This year there will election for three (3) board members as well as a fourth seat on the board because of my unplanned resignation as board member and chairman of the SSG. There will therefore be a need to elect a new chairman and a new secretary for SSG. I would like to use this opportunity to thank all SSG members for their support and engagement in SSG activities in my short period as chairman.

As previous years the general assembly will be followed by a scientific program with some lectures on selected topics. To make the session multidisciplinary and interactive, we will dedicate half of the session to discuss "ultra-rare sarcomas". During this session various colleagues will present actual challenging cases to open multidisciplinary discussions not only on management issues but also about tumor biology and the diagnostic challenges.

On Tuesday afternoon the Visceral and retroperitoneal sarcoma working group will have their meeting and, as in previous years, all are invited and encouraged to participate.

All chairmen of the working committees should send their report from the meeting to the SSG's secretariat, our administrative coordinator Eva-Mari Olofsson (Eva-Mari.Olofsson@med.lu.se) before February 20th, 2022.

Akmal Safwat
Chairman of the Scandinavian Sarcoma Group

Agenda

- First off, the current chairman of the genetics group Karolin Hansen-Nord will resign from role and a new chairman will have to be elected in her stead. Felix Haglund is a candidate for this role as he has expressed interest in and willingness to take this on.
- In addition, there are a few more members of the board who will resign from their roles. If you have any suggestions or anyone whom you would like to recommend for the board, please let me know.
- We will also need to discuss how our group will deal and work with future pathology meetings and the subjects for these meetings. Some work on this was done during the last meeting but as considerable time has passed since then I fear we had better start the discussion anew.
- As usual an interesting topic will be new techniques developed and the genetic findings in new entities/diagnoses.
- I think there will be a few new people joining our group and will look forward to hearing their thoughts and opinions.
