Introduction

Dear SSG members,

I would like to welcome you to the 27th Scandinavian Sarcoma Group Working Committee Meeting in Malmö 2022.

As usual all working committees will have their own program and will comprehensively discuss selected topics.

On Monday morning we start with the General assembly where the board will present the status and ongoing and planned activities within the SSG. This year there will be an election for a new board member one from Finland who will replace Kaisa Sunela who has got another position.

As previous years the general assembly will be followed by a joint scientific program for all participants on selected topics that I hope you will find interesting. Martin Mc Cabe will come from Manchester and talk about Ewing sarcoma and the rECCur study. Svetlana Bajalica Lagercrantz from Stockholm will come and give a talk about hereditary aspects of sarcoma.

We will also have a multidisciplinary session with presentations and discussions about complicated cases which will include everything from tumor biology, diagnostic challenges to surgery and medical treatment. We hope that this session will be interactive and useful!

On Monday afternoon the various working groups will work separately and will then be asked to present a short summary of their work on Tuesday morning.

On Tuesday afternoon the Visceral and retroperitoneal sarcoma working group will have their meeting and, as in previous years, all are invited and encouraged to participate!

I am really looking forward to seeing you all in Malmö!

Christina Linder Stragliotto
Chairman of the Scandinavian Sarcoma Group

Medical oncology & Radiology working group

Date: December 5, 2022, 13.00–17.00
December 6, 2022, 08.30–10.00

Place: Meeting room: WTC “Tokyo”

Chairs: *A. Papakonstantinou, Stockholm, N. Jebsen, Bergen*

Agenda

- Oncologists and orthopedic surgeons discussing preop vs postop radiotherapy in extremity and trunk STS.
- A session devoted to presenting cases of ultra-rare sarcomas (for example CIC-DUX4, mesenchymal chondrosarcoma, PRECOMA etc....).
- Summary of definitive RT in Ewing sarcoma. Scandinavian practice? Technique and RT dose? Differences between centers? Survival outcomes?
- Rhabdomyosarcoma: Morbidity & Mortality case.
- Study updates:
 - Medical oncology studies
 - MLS-registry update
 - Qualitative study on bone sarcoma patients who have undergone particle therapy abroad.
- Cryotherapy in bone sarcoma and consequences for histopathological response evaluation – a topic relevant for both oncologists and pathologists.
- Artificial intelligence in sarcoma research.

Morphology/Tumor biology working group

- Date:** December 5, 2022, 13.00–17.00
December 6, 2022, 08.30–10.00
- Place:** Meeting room: Hotel Park Inn, “Conference room C”
- Chair:** *P. Rissler, Lund*

Agenda

- First off, the current chair of the genetics group Karolin Hansen-Nord will resign from role and a new chair will have to be elected in her stead. Felix Haglund is a candidate for this role as he has expressed interest in and willingness to take this on.
- In addition, there are a few more members of the board who will resign from their roles. If you have any suggestions or anyone whom you would like to recommend for the board, please let me know.
- We will also need to discuss how our group will deal and work with future pathology meetings and the subjects for these meetings. Some work on this was done during the last meeting but as considerable time has passed since then I fear we had better start the discussion anew.
- As usual an interesting topic will be new techniques developed and the genetic findings in new entities/diagnoses.
- I think there will be a few new people joining our group and will look forward to hearing their thoughts and opinions.

Nurses and Physiotherapists working group
