Kajsa Sunela has left the board since she has got a new position in Finland. The election committee will try to find another member from Finland. We all agree that it's very important that Finland is participating in the SSG group. The plan is to get the new member elected in at the meeting in Malmö in December.

Lotta has a suggestion that a nurse from Denmark who is working with sarcoma will replace her, but she would then need to take vacation to be able to participate. Lotta will try to talk to the Danish doctors about this problem and see if there is a solution.

The schedule for the working group meeting in Malmö is presented, we have two speakers, Martin Mc Cabe from Manchester and Svetlana Lagercrantz from Stockholm. The abdominal meeting will be planned by the surgeons at Karolinska Hospital. There will be a session with case reports before lunch on Tuesday.

Planned studies are discussed, the protocol of the PERELI study has been presented by Helena Nyström and Kjetil Boye to Incyte and they are willing to sponsor the study.

Marthe and Kjetil are analyzing the data from the SSGXXII study.

The next general meeting will be hold in Gothenburg om May 22-24 2024. Eva-Mari is examining where the meeting could be held.
