

Meeting Report – Oncology–Radiotherapy Working Group

SS WGM | 2–3 February 2026

1. Overview

The meeting focused on future development of the working group, scientific initiatives, ongoing and upcoming clinical trials in the Nordic region, and key updates from CTOS. Discussions also covered collaboration formats, meeting structure, and specific protocol developments.

2. Future Aspects of the Working Group

- More interaction between meetings
- Maintain one major meeting per year on standard dates
- Rotate meeting location every 2–3 years and consider a 3-day meeting
- Increase scientific content (abstracts, posters, structured presentations)
- Advance collaborative projects
- Invite PhD students to present research

3. Nordic Ewing Discussion Forum

Joint session with the Orthopedic Surgeons, led by Ole-Jacob Norum. Discussion about the case discussion flow, experience from the forum's first year and how cases are submitted.

4. Highlights from CTOS

- Presentation of the Chondragon chondrosarcoma study
- Studies comparing neoadjuvant RT vs RT+ICI in STS
- (Neo)adjuvant therapy in radiation-related angiosarcoma

5. Trials Open for Inclusion in SSG Countries

Norway:

- Neo-STS (Neoadj chemo)
- PERELLI
- PROPANE
- STRATEGIST-30
- INTER-EWING-1
- PROSARC-1
- PROSARC-2

Sweden:

- FOSTER-CabOS
- FAR-RMS
- PERELLI

- iEURO-EWING
- FOCU.SE
- TANGENT

Denmark:

- Chonquer
- PROPANE
- rEECur
- STRASS 2
- Strexit 2
- Far-RMS
- Inter-EWING

6. Immobilisation Protocol for RT in Denmark

A brief update was provided on the implementation of the national immobilisation protocol used for radiotherapy in Denmark.

7. PROSARC-1 & PROSARC-2 Trials in Norway

Overview and status update on the two Norwegian trials with emphasis on relevance for sarcoma management.

8. Additional issues

Discussion on different aspects regarding definition and management of oligometastatic disease, experiences and practices in first line therapy for metastatic leiomyosarcoma and precision medicine efforts in the centers around Scandinavia.

9. Summary & Next Steps

The group aims to strengthen scientific collaboration and interaction between annual meetings. New and ongoing clinical trials across Norway, Sweden, and Denmark offer opportunities for joint research efforts. Structural improvements will be explored ahead of the next meeting.
